

**Real People,  
Real Work,  
A Real Future**

## **Explore Computer Science**

**A million ways to cool:** "It is surprisingly creative work. There are usually a million different ways to solve a problem, and it's fun to come up with the way that you enjoy the most, whether it's making the coolest abstractions, or the quickest solutions." Kristen Accardi, PSU Computer Science graduate

**Computer Science is all about solving problems, making a difference and getting paid well — all at the same time.**

Get the latest information from college students, professors, recent graduates, and seasoned professionals.
